Lindo Nursery is one of the oldest growers of Camellias and has one of the finest collections in the country. These have been collected from all parts of the United States where Camellias are grown. There are at present 150 varieties on hand and more are being gathered whenever new and rare plants are located. All are double or semidouble with the exception of three outstanding single varieties.

Very keen interest has been shown in Camellias in recent years as people become acquainted with their fine flowers. Many new collectors are hunting for the rare and beautiful varieties.

With the very limited stock of large Camellias plants available throughout the country this season, the Nurseries should take advantage of the fine stock offered at such attractive prices as those quoted below

| VARIETY | PRICE WHOLESALE ALL SIZES INDICATED IN INCHES | | | | | | | | | | | | | | | MISCL. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
